**Type SGAR** - for snow retention

Gough **SnoGuard**™ for Slate, Copper, Asphalt Shingle, Wood Shake Roofs

Typical Gough Sno Guard

**TYPICAL SIZES INDICATED ARE (+/-) 1/16" (1.6MM)**

**A = 6 3/8"    B = 5"    C = 1 1/4"    D = 1"    E = 3 1/4"**

- Made of 24 oz. copper
- Includes two vertical pedestals each of double 24 oz. copper for strength (making each pedestal an equivalent of 48 oz. copper), making it the most stable & strongest snow guard on the market
- Flat copper base allows unit to hug close to roofing material
- Holding surface almost 50% greater than others - helps retain more snow with each snow guard
- For new construction or adaptable for retrofit
- Also available in lead coated copper and painted metal
- May be customized for different roofing materials and dimensions
