

# ACRO BUILDING SYSTEMS

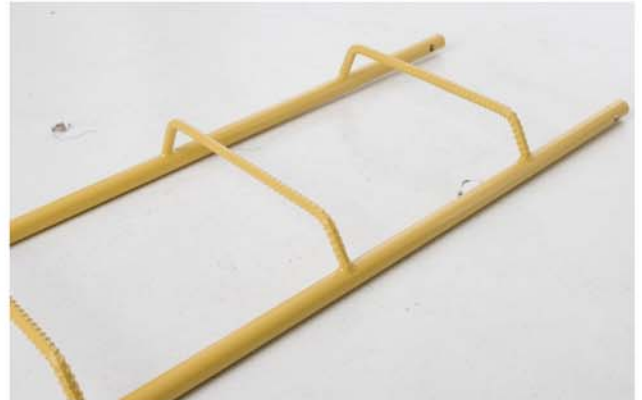

## CHICKEN LADDER SYSTEM

COMBINE 6' SECTIONS FOR LENGTHS OF 12' 18' OR 24'

### **CHICKEN LADDER #11601 & #11610**

- Combine 6' Sections with Hook for Climbing Aid
- Ideal for Quick On and Off Work
  - Inspections & Estimates
  - Solar Panel Installation
  - Small Repairs (Masonry, HVAC, Roofing, etc.)
- Attach ladder section with a 1 ½" bolt and reversible lock nut for safety; for quick connect: use safety clevis pin
- Raised solid-steel rungs are hand-welded for safety
- 10" hook has ½" reinforcement rod adding strength and stability
- Wheel added to roll up roof for easy positioning (also prevents damaging shingles)
- 250 lb, Capacity
- Now UPS-shippable
- Powder coated safety yellow
- Made in America

### **PADDED LADDER KIT #11620**

- Optional padded ladders with protective covers
- Prevents marring of roofs

These heavy-duty, super-tough chicken ladders make it easy to access and maneuver in hard-to-reach work areas. The raised, solid-steel rungs are hand-welded for safety, and the 10" hook has a ½" reinforcement bar. The T-bar is positioned over the peak to prevent slippage. 6' extensions are available.

Chicken Ladder			
Model #	Description	Lbs.	Dimensions
11610	Ladder Hook	5	28"x14"x12"
11601	6' Ladder Extension	12	72"x20"x4"
